# Resumption of Play

In 1987 a new procedure was introduced by the **NFHS** to resume play in the event a team was **DELAYING** to make a thrower available **AFTER** a **TIME-OUT** or any **INTERMISSION**.

# Resumption of Play

In 1987 a new procedure was introduced by the **NFHS** to resume play in the event a team was **DELAYING** to make a thrower available **AFTER** a **TIME-OUT** or any **INTERMISSION**.

If the team entitled to the throw-in does not make that player available when directed to do so, the following **RESUMPTION OF PLAY PROCEDURES** should be instituted immediately

- After the final warning horn is sounded to signal the end of the time-out / intermission, the official administering the throw-in should **SOUND the WHISTLE** to signal the play is about to resume.

- After the final warning horn is sounded to signal the end of the time-out / intermission, the official administering the throw-in should **SOUND the WHISTLE** to signal the play is about to resume.
- Although not absolutely necessary but commonly practiced by veteran officials, the other crew member(s) or whomever is closest to the bench area to **VERBALLY ENCOURAGE** the teams to break their huddles by saying something like ...  
"White ball, time-out is over, no substitutes, we're ready to play, let's hustle

- If the defensive team does not make their team available for play, the team entitled to the ball shall be given the opportunity to **INBOUND IMMEDIATELY** without regard for their opponent's delay tactics.

- If the defensive team does not make their team available for play, the team entitled to the ball shall be given the opportunity to **INBOUND IMMEDIATELY** without regard for their opponent's delay tactics.
- If Team A, which is entitled to the throw-in, delays their return ... the ball shall be **PLACED on the FLOOR** and the five second count started. This Team A may quickly respond, hustle out to the floor, and pick-up the ball and complete the throw-in legally within the prescribed five second limit.

- However, Team B (on defense) is **NOT** permitted to **REACH ACROSS** the boundary line to pick up the ball after the official places it on the floor. Since the thrower is not present, it is **NOT** a **TECHNICAL FOUL** but only results in a **DELAY** of **GAME WARNING** assessed against Team B, provided it is their first warning for delay.

- However, Team B (on defense) is **NOT** permitted to **REACH ACROSS** the boundary line to pick up the ball after the official places it on the floor. Since the thrower is not present, it is **NOT** a **TECHNICAL FOUL** but only results in a **DELAY** of **GAME WARNING** assessed against Team B, provided it is their first warning for delay.
- If Team A does **NOT RETURN** and the official reaches the end of the five second count, a **VIOLATION** shall be ruled and the ball awarded to Team B at this same spot.

- If for some reason Team B is not **READY** to **RESUME** play after Team A violated, the ball shall be put on the **FLOOR** in the **SAME MANNER** with a five second count initiated. The same applies for Team B as stated above.

- If for some reason Team B is not **READY to RESUME** play after Team A violated, the ball shall be put on the **FLOOR** in the **SAME MANNER** with a five second count initiated. The same applies for Team B as stated above.
- Once **EITHER** team **VIOLATES** utilizing this procedure, **ANY SUBSEQUENT** delays when authorized to make a throw-in by that team shall result in an immediate team **TECHNICAL FOUL**.

- The Resuming Play Procedure of placing the ball at the free throw line can ONLY be used following a TIME OUT.

- The Resuming Play Procedure of placing the ball at the free throw line can ONLY be used following a TIME OUT.
- EITHER or BOTH teams may be charged with a violation during this procedure.

- The Resuming Play Procedure of placing the ball at the free throw line can ONLY be used following a TIME OUT.
- EITHER or BOTH teams may be charged with a violation during this procedure.
- The administrating official shall sound the whistle to indicate play shall be resume.

- The Resuming Play Procedure of placing the ball at the free throw line can ONLY be used following a TIME OUT.
- EITHER or BOTH teams may be charged with a violation during this procedure.
- The administrating official shall sound the whistle to indicate play shall be resume.
- If the free thrower is in the semi-circle –the ball is then bounced to the free thrower, whether or not Team B is occupying their required lower lane spaces.

- If team B is NOT occupying the lower lane spaces and Team A's free throw is successful.. There has been no violation. **HOWEVER** ..if the free throw was unsuccessful... a violation shall be called on Team B thus allowing a substitute free throw by A1

- If team B is NOT occupying the lower lane spaces and Team A's free throw is successful.. There has been no violation. **HOWEVER** ..if the free throw was unsuccessful... a violation shall be called on Team B thus allowing a substitute free throw by A1
- **ONCE EITHER TEAM VIOLATES...any further delay by that team(s) is a technical foul.**

- IF the free thrower is NOT in the semi-circle...  
the administrating official shall place the ball on the floor at the free throw line and the ten second count shall begin.

- IF the free thrower is NOT in the semi-circle...  
the administrating official shall place the ball on the floor at the free throw line and the ten second count shall begin.

- IF the free thrower is NOT in the semi-circle... the administrating official shall place the ball on the floor at the free throw line and the ten second count shall begin.
- Once the ball is at the disposal of the free thrower... "NO PLAYER SHALL ENTER OR LEAVE A MARKED LANE SPACE OR ENTER OR LEAVE THE FREE THROW SEMI-CIRCLE." If this occurs... a violation shall be called The ONLY way for team A to avoid a violation in this situation, is to request and BE granted a time – out.

- If Team A does NOT receive a time-out and a ten second count is reached...Team A has violated and so has Team B...if they were not occupying their required lower lane spaces.

- If Team A does NOT receive a time-out and a ten second count is reached...Team A has violated and so has Team B...if they were not occupying their required lower lane spaces.

- If Team A does NOT receive a time-out and a ten second count is reached...Team A has violated and so has Team B...if they were not occupying their required lower lane spaces.
- REMEMBER if no time out has been called and free throws are to be taken and a prior team warning for delay has been given, if the free thrower IS NOT in the semi-circle when the administrating official is ready, a technical foul is charged to the free thrower. IF the free thrower is in the semi-circle, but does not accept the ball, it shall be placed on the floor and the count started.

- If Team A does NOT receive a time-out and a ten second count is reached...Team A has violated and so has Team B...if they were not occupying their required lower lane spaces.
- REMEMBER if no time out has been called and free throws are to be taken and a prior team warning for delay has been given, if the free thrower IS NOT in the semi-circle when the administrating official is ready, a technical foul is charged to the free thrower. IF the free thrower is in the semi-circle, but does not accept the ball, it shall be placed on the floor and the count started.
- If no warning has been given, one is then given and any further delay by that team results in a technical.

- To that end, if a team **REFUSES to PLAY** after technical fouls have been assessed, the game may be **FORFEITED** as a last resort, based on, NFHS, state, and local requirements.

- To that end, if a team **REFUSES to PLAY** after technical fouls have been assessed, the game may be **FORFEITED** as a last resort, based on, NFHS, state, and local requirements.
- So remember, there is a specific procedure to follow if the teams are not ready to resume play after a time-out or the conclusion of an intermission or after a time out prior to shooting free throws or after a foul has been call with free throws to follow. Good crew communication with the table and benches will usually minimize the need for these cases but it's good to know what to do when it happens.
